

Annual Report
2016–17

Mission & History

OUR MISSION

The van Ameringen Foundation funds innovative and practical programs for early intervention, advocacy and increased accessibility of mental health services for people and communities with limited financial means and opportunities.

HISTORY

The van Ameringen Foundation is a private grant making foundation located in New York City. The Foundation was established by Arnold Louis van Ameringen in 1950 and received its assets from him during his lifetime and at his death in 1966 and from his widow, Hedwig van Ameringen, during her lifetime and at her death in 1996.

From its inception, the Foundation has funded prevention, education, and direct care in the mental health field, as well as advocacy efforts to achieve systems change locally and nationally. The emphasis continues to be on assisting people and communities with limited resources and opportunities to access preventive, early intervention and effective mental health treatment.

Grant Guidelines

OVERVIEW

Within its broad focus on mental health, the Foundation encourages innovative and practical grant proposals in areas which:

- >>> increase the accessibility of mental health services to people and communities with limited financial means and opportunities;
- >>> offer preventive and early-intervention strategies;
- >>> advocate for systemic change with local or national impact.

GRANT PROCESS & ELIGIBILITY

The van Ameringen Foundation provides grants in metropolitan New York and Philadelphia, as well as advocacy support at the national level.

Before requesting further support, grantees are asked to wait at least one year after submitting a final report.

To apply for a grant, you must take a short eligibility quiz. If you qualify to apply, you will need to register on our application portal and begin the grants application process by submitting a letter of inquiry.

GRANT TYPES

The van Ameringen Foundation provides general support and project specific grants in two overall categories:

DIRECT SERVICE GRANTS

The Foundation funds programs and projects that provide a direct service, such as case management, assessment, counseling, psychotherapy, psychiatric care, training, or jobs, housing, and other supports to people and communities confronting significant mental illness.

NON-DIRECT SERVICE GRANTS

Advocacy: The Foundation funds strategies that seek to create changes in the law, public policy, or in the perceptions and practices of the public and private sectors responsible for improving mental healthcare, particularly in unserved or underserved communities.

Media/Dissemination: The Foundation funds efforts which seek to share research findings, best practices, and knowledge related to improving the mental health safety net and system. This may be in the form of a publication, training, or media project using traditional or new forms of communication.

Training: The Foundation funds activities that provide learning and skill-building opportunities for mental health providers, advocates, people living with mental illness, policymakers, and family or community members who are seeking to deepen their understanding, knowledge, treatment, or social change efforts.

GRANT DURATIONS & SIZES

DIRECT SERVICE GRANTS

Duration: Up to three years

Size: Between \$25,000 – \$75,000 annually

NON-DIRECT SERVICE GRANTS

Duration: Up to three years

Advocacy Grant Size: Up to \$250,000 annually

Media/Dissemination & Training Grant Size:

Between \$25,000 – \$75,000 annually

WHAT WE DO NOT FUND

The Foundation is not active in programs for intellectual disability or physical disability, nor do we make grants directly to individuals. Given our limited resources, the Foundation also is not able to support endowment campaigns, capital projects, annual fund-raising drives, or international activities and institutions.

Executive Statement

ARNOLD AND HEDWIG VAN AMERINGEN ESTABLISHED THE VAN AMERINGEN FOUNDATION IN 1950.

Over the next almost 65 years, and under the stewardship of Arnold, his three children, Lily Auchincloss, Patricia Kind, and Henry van Ameringen, the Foundation has remained true to its mission: to provide grants to support innovative and practical programs for early intervention, increased accessibility to, and advocacy for mental health services for individuals and communities with limited financial means and opportunities.

In 2014, Kenneth Kind, Arnold and Hedwig's oldest grandchild, became the fifth President of the van Ameringen Board, succeeding his uncle Henry, who had ably led the Foundation for more than 20 years. In 2016, Hugh Hogan became the Foundation's second Executive Director, replacing Eleanor Sypher, who retired following 25 years of superb professional leadership.

Following a June 2017 Board Retreat, the van Ameringen Foundation Board reaffirmed its commitment to its core mission but with a greater focus directed towards advocacy to achieve systems change and support the delivery of broader and more accessible mental health care, and towards direct service programs impacting New York City and Philadelphia.

The Foundation will continue to fund broadly across our **twelve categories of work**, but will prioritize the following needs for the next several years:

- >>> Services and programs that treat foster children or other highly vulnerable children;
- >>> People confronting more significant mental illness, particularly youth at risk of developing significant mental illness;
- >>> Programs that support people with serious mental illness obtaining and retaining permanent supportive housing;
- >>> Programs that divert or provide alternatives to incarceration for justice involved mentally-ill;
- >>> Recent immigrants with diagnosed or more serious situational mental illness.

Moving forward, the van Ameringen Foundation will also continue its ongoing commitment to mission-aligned investment of its endowment assets, and will seek to share information about our grantee work and mental health issues more broadly through a recently redesigned website. Please visit us at www.vanamfound.org to learn more about us and how to apply for a grant.

Grantmaking: New Grants 2016
